Semi-supervised Teeth Segmentation and Registration Challenge 2025

User Agreement Terms

1. All participants should register for this challenge with their real names, affiliations, and affiliation E-mails.

2. All registered teams are required to make a full submission, which should include the docker container and complete source code. Moreover, for those participants interested in workshop papers, we strongly encourage the submission of a qualified methodology paper (minimum 8 pages, LNCS format).

3. All participants can only register one team and account. Each team can have at most six people.

4. For a fair comparison, participants are not allowed to use any additional data. Pre-trained models are allowed, with the restriction that only models publicly accessible and not trained on our challenge dataset.

5. Redistribution or transfer of data or data link is not allowed. Participants should use the data only by themselves. The challenge data will be free to use after the submission of a challenge summary paper.

6. If a participant violates the above guidelines, we reserve the right to cancel the participant's final results and hold the legally accountable.

All participants need to agree and follow above rules.

Signature of the supervisor, who takes responsibility for the recipient to respect the terms of this agreement at his/her institution:

Data Access Agreement Form

The semi-supervised teeth segmentation challenge has two tasks. Please check either (or both) of the following dataset requests to receive the corresponding training data.

☐   CBCT-IOS   ☐   3D dental CBCT

Basic information and signature for team members (signature should be handwritten in wet-ink):
